

Dear Senator Gillibrand,

I am writing to urge you to fight the proposed deal between Verizon's subsidiary Verizon Wireless and the Cable companies. The FCC and DOJ should not approve this deal, which destroys good, union jobs, and is also bad for customers.

This proposed deal ends a historic competition between Verizon and the cable companies, including Comcast and Time Warner. Verizon, through its subsidiary Verizon Wireless, will form a giant, unregulated quasi-monopoly with the cable companies.

This deal will be very profitable for Verizon Wireless and cable, ending any incentive to invest in FIOS and compete against cable. There will be fewer jobs building, maintaining, servicing and installing the FIOS network.

Buffalo, Syracuse, Albany, other Upstate cities and rural areas, as well as Eastern Long Island, will all get left behind with no cable competition, costing CWA and IBEW jobs. Even regions with FIOS could be affected, since there will be far less incentive to invest in the network.

I urge you to reject this proposed deal because it will destroy jobs, as well as hurt consumers. Thank you for your consideration.

Sincerely  
Richard Boicouran

I am writing to urge you to fight the proposed deal between Verizon's subsidiary Verizon Wireless and the Cable Companies. The FCC and the DOT should not approve this deal, which destroys good union jobs and is also bad for consumers.

This proposed deal ends a historic competition between Verizon and the cable companies, including Comcast and Time Warner. Verizon, through its subsidiary Verizon Wireless, will form a giant unregulated quasi-monopoly with the cable companies.

This deal will be very profitable for Verizon Wireless and cable, ending any incentive to invest in FiOS and compete against cable. There will be fewer jobs building, maintaining, servicing and installing the FiOS network.

Buffalo, Syracuse, Albany and other Upstate cities and rural areas, as well as Eastern Long Island will all get left behind with no cable competition, costing C.A.A. and I.B.E.W. jobs. Even regions with FiOS could be affected, since there will be far less incentive to invest in the network.

The proposed deal is a *disfranchisement* between Verizon & the cable companies, making its subsidiary, Verizon Wireless, cut from a great unequal & quasi-monopoly with the cable companies.

The deal will be very profitable for Verizon Wireless & cable, eating any potential to benefit the ROS as they compete against cable. There will be lower PBS funding, maintenance, financing & installing the PBS network.

Dear Senator Schumer:

I am writing to express my strong opposition to Verizon Wireless' and the cable companies' secret spectrum deal, as it currently stands.

The deal, struck behind the closed doors of America's corporate boardrooms, poses a threat to both consumers and workers. If it goes through unchanged, it will be the death knell for competition between cable and telecom companies. Verizon Wireless, Comcast, Time Warner, and the other cable companies will become a single, giant quasi-monopoly that is unregulated. Verizon will have little incentive to challenge cable by building FiOS into new areas. The likely result? Less competition and higher prices for consumers.

It will also mean job loss for American workers. With soaring unemployment rates, our nation cannot afford to create another Corporate Behemoth that will use exclusive quad-play market power to
